PELUANG BISNIS TAK TERHINGGA DI DUNIA OTOMOTIF

Saat ini outomotif di Indonesia sangat berkembang hingga dijadikan sebagai sebuah cabang ilmu yang diajarkan di dunia pendidikan, khususnya di sekolah-sekolah kejuruan. Beberapa tahun terakhir, para siswa Indonesia yang kreatif telah menghasilkan motor dan mobil sebagai karya anak bangsa. Fakta ini menunjukkan bahwa Indonesia mulai mensejajarkan dirinya di dunia internasional, khususnya melalui bidang automotive.

Perkembangan yang pesat di dunia automotive telah membuka peluang bisnis yang sangat besar bagi para entrepreneur. Ada banyak bisnis yang bisa memberi keuntungan tak terhingga bagi mereka yang fokus di dunia automotive, mulai dari penjualan kendaraan bermotor, perawatan/maintenance kendaraan bermotor, penjualan sparepart kendaraan bermotor, aksesoris dan modifikasi kendaraan bermotor, sampai perlengkapan bagi para pengendaranya. Bisnis di industri outomotive tentu akan terus meningkat sehingga memberi keuntungan yang tak terhingga bagi orang-orang yang fokus di dunia automotive.

In present, automotive domain is on the rise, especially in Indonesia, hence this become a discipline which is commonly taught in learning centers, particularly in vocational schools. Indeed, Indonesia is so proud for its students who have been so creative and innovative that they have created two-wheels and four-wheels motorized vehicle. This fact shows that Indonesia is quite worth to start taking part internationally, mainly in automotive domain.

The rapid development in automotive field has provided fairly business chances to entrepreneurs. This field promises numerous opportunities which could earn limitless benefits for those who manage their business in automotive fields, starting from selling the motorized vehicles, providing the maintenance to motorized vehicles, selling various spare-part, accessories, and modifying the vehicles, to being a partner in supplying the equipment acquiring to support these previous business. The indefinite prospect of business in automotive field will keep going up and give huge profits to one whose concern relating to this field.
